Currently working on a project for HHCA with an awarded grant from Chesapeake Bay Trust (CBT) for \$55,500 for retrofit Bonaparte/Severn Roads, the community’s beach

I live in Herald Harbor a community started in 1924 and is on the other side of the Severn River from Severna Park. My interest and love for The Severn River stems from my delight as a child in the marine life and beauty of The Severn River. Since I grew up here I have a unique perspective on the changes and problems facing the river. How do we continue to accommodate development at the current accelerated rate and preserve the nature that brought us to this scenic place? Every person should be aware of the part they play in our environment because all things are connected. When we ruin our environment, we ruin ourselves.
